

PRODUCTS FOR YOUR INDEPENDENCE

 BraunAbility®

Swivel seats

Getting the seat outside the vehicle is achieved with a swivel seat, such as the Turnout, that rotates out of the vehicle. Our latest swivel seat, the Turny Low Vehicle, goes even further, getting the seat almost completely outside the vehicle.

Seat lifts

Our Turny seat lifts rotate out and lower down to your desired height. Getting seated is now only a matter of sitting down or making a completely unobstructed transfer from your wheelchair. When properly seated you press a button and the Turny lifts you comfortably into a safe position in the vehicle.

Transfer wheelchairs

The Carony completely eliminates lifting during the transfer. Instead the entire seat slides between wheelchair and car. You can enjoy the comfort and safety of riding up front in your car without ever having to leave your wheelchair seat.

Roof box

The Chair Topper is like a valet service for your wheelchair. When you get seated in your car, the Chair Topper will take care of your wheelchair for you. When you're ready to leave the car, the Chair Topper will bring your wheelchair to you. In between it is safely stored in the weatherproof roof top box.

Hoists

Carolift hoists are well proven and will stow everything from a light walker to a heavy electric wheelchair or scooter without unnecessary back breaking lifts.

Hand controls

The Carospeed hand controls move the accelerator and brake functions from the pedals to a hand operated lever. Control is as simple as pull back for gas and push forward to brake.

Floors and restraints

Wheelchair tie-downs and occupant belts are a must to provide proper safety to the passengers in your vehicle. Our range covers everything from flooring and rails to wheelchair and occupant restraint systems.

We won't let limited mobility prevent you from driving or riding in a car.

At BraunAbility we are here to help you do what so many takes for granted; drive to work, pop down to the shops, drop in on friends or go on a great driving holiday. In our vision of the future you have the independence to use the car you love, not just a vehicle that suits your needs.
