

Selvstendig liv Handikap Trade Fair of Equipment and Supplies for Handicapped People

Selvstendig liv Handikap Trade Fair is held every second year in Lilleström, outside Oslo. This year the exhibition had 5100 visitors.

The cost of the stands is as always a large burden for the exhibitors, so like two years ago most of the cars were outside the exhibition centre. Last time many of the visitors did not find the way to the outside so this year large signs showed the way. A map was also presented in the exhibition program. It was very popular to go out and look at all the cars. If it was because of the very sunny weather or the free hot dogs and soft-drinks sponsored by the car adaptation companies, is unknown.

Autoadapt's dealers in Norway; - Handi-Norge, Handicare and RepTek all participated in the exhibition and showed Autoadapt products.

▲ Dag Urstad from Handicare is happy to talk about the new Joey lift.

◀ Anne & Geir from Handi-Norge with a wheelchair Carony in front of a Peugeot 1007.

- ▶ The brightly red Peugeot attracted many visitors. Here installed with the swivel seat Turny Orbit in combination with the wheelchair Carony.

Ken Lien from Handicare explains about the new power wheelchair Carony Go to an interested visitor.

- ▶ Tryggve Knutson from RepTek with a Turny in a MercedesVito.

- ▶ Tryggve Knutson from RepTek with a Turny in a MercedesVito.

A very unique wheelchair lift to the driver side of a truck from RepTek. One of a kind!
