DUBAI INTERNATIONAL REHABILITATION FORUM 7-9 March

Autoadapt participated for the second time in Dubai, this time in the Dubai International Rehabilitation Forum by our dealer in the United Arab Emirates - Energy Engineering Systems LLC. EES shared exhibition stand with Braun Corporation and Q'Straint.

We want to thank EES for carrying through a very professional stand during the exhibition days in Dubai.

We believe there is a great potential in this region for car adaptation products in the future!
