

AUTOADAPT

Dealer News

April 2006

REHAB Scandinavia
Copenhagen, Denmark
April 25-27th, 2006

This year the exhibition took place in Copenhagen, Denmark. Every second year the exhibition is placed in Fredericia. The exhibition had 8200 visitors, unfortunately a smaller number of people than year 2004 when there was a total of 9000 visitors.

As always, there were a lot of adapted cars in the exhibition of all kinds of car makes and models. A person looking for different solutions to fit his/hers disability had a great opportunity to find something that would be of interest.

The car adaptation company Sahva from Denmark had the new Autoadapt Joey lift mounted in a VW Caddy, as well as the new power wheelchair Carony Go.

Handi-Mobil showed several of Autoadapt's products such as the car seat lift Turny, the wheelchair Carony, the swivel seat Turnout and also the new Joey lift and Carony Go.

Sahva and Handi-Mobil received positive reactions from several customers who showed great interest in the new products. Several other companies also displayed Autoadapt products, so in total it was a very good show for Autoadapt and our dealers in Scandinavia!

▲ Henrik N. Christensen from Sahva with the new products

▲ Klaus Fyllgraf at Handi showing the platform lift Joey to curious visitors.

▲ Lars Nielsen from Handi demonstrates the transport wheelchair Carony.

▲ Frank and Brian from Langhøj talks to potential customers
