

SUPPORT EXPO in Utrech, Holland April 19th -20th 2006

The Support exhibition in Utrecht was very nice and well attended. This year 24500 visitors came in the four days. The AAN "Auto Aanpassers Nederland" participated with a stand together with other car adaptation companies. This year Welzorg and B&S had chosen to have their own stands. Bever had the largest stand, and showed several cars with different types of Autoadapt products, which we, of course, were happy to see!

Sjaak Hinkenemper from the car adaptation company Bever with a blue wheelchair Carony 24" combined with the Care Belt System.

Welzorg showed a Carony 12 in their car for a group of interested visitors.

Tripod had a Turnout with BEV seat mounted right front in their VW Caddy.

Marcel v/d Heuvel from Bever with a yellow Carony.
