

## Barcelona International Motor Show, May 2005

Peter Wahlsten, Autoadapt's marketing director, visited this Barcelona motor show, which is held on an enormous scale over twelve days and attracts a estimated 1.5 million visitors. The entire motor industry is present and with it all the motoring accessories that one expects to find. Of extra interest this year was the participation of Minusvalido S.A. who had a brilliant stand with thirteen cars of different makes, equipped with adaptation products. Virtually all those made by Autoadapt were represented on these vehicles, which was very much appreciated. Not merely by the visitors but also by Autoadapt's representative in Spain, Peter Wahlsten. The best of luck for their continuing efforts!
